Commissioner for Patents
Alexandria, VA 22313-1450
U.S.A.

Dear Sir:

Further to our submission of February 15, 2006, containing a PCT National Phase Entry filing based on PCT/CA2005/001060 filed July 7, 2005, we now enclose a Corrected Version of the PCT Published application and the excerpt from the PCT Gazette which identifies the inventor's corrected name. We ask that you ensure that your records identify this on the Official Filing Receipt.

Respectfully submitted,

GORDON JOHN ALLAN

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: MIXED-SIGNAL THERMOMETER FILTER, DELAY LOCKED LOOP AND PHASE LOCKED LOOP

(57) Abstract: Circuits for implementing a thermometer code in a mixed-signal fashion are provided. Each of a set of outputs can be digital or analog in a transition region. The mixedsignals can be used to control delay elements in a delay line for application in DLLs or PLL or clock de-skew circuits, or can be used to control voltage controlled oscillators. Two sets of driver elements are connected to the set of mixedsignal outputs and in a first control state, one of the sets drives the mixed-signal outputs sequentially to off states, while in another control state, the other of the sets drives the mixed-signal outputs sequentially to on states. Any mixed-signal that is not completely driven to its on or off state will generate an analog output.
